ABOUT COACH ASHLEY PFEIFER

I am married to my husband Brian. We love to travel the world, spend time with family and friends. This past summer we vacationed and volunteered to support schools in Jamaica. We also took in some breath-taking views in Ireland. During the day, I am a Library and Technology Literacy Coach for Silver Spring Intermediate School in the Hamilton School District.

COACHING PHILOSOPHY

My philosophy of coaching is centered on developing strong, resilient young women through the sport of volleyball. I believe that playing volleyball is not only about honing athletic skills but also about building character and preparing individuals to overcome challenges. My coaching approach emphasizes skill development, mental toughness, and teamwork. I provide individualized feedback to each player, focusing on specific areas for improvement and encouraging continuous growth. Every player is a valued member of our team, contributing to the overall success. My goal is to create a positive and supportive environment where players can learn, grow, and develop into well-rounded individuals.

COACHING HISTORY
