HEAD COACH

ABOUT COACH SKYLAR CZAPLEWSKI

I go by Coach Choppy! My 14s coaches knew someone with the same last name as me and they called HIM Choppy so when they saw my name they decided to call me Choppy and it's stuck for the last 14 years. I'm engaged to Coach Caydee George. I proposed to her at the Sting Center last season. I have a black cat named Trixie.

COACHING PHILOSOPHY

I believe that every player has greatness in them and it's up to the coach to help their players find and express that greatness on the court. I think being able to translate the success they find on the court into good habits for their lives outside volleyball is essential to development into not just a good player, but a good person. At the end of the day it's not about the wins and losses and trophies. It's about being a good person and having a good impact on those around you and I hope to bring that out of my players
