ABOUT COACH NATE HERR

I'm currently a wastewater engineer during the day when I'm not coaching, and I also work on a community advisory committee for the city of Milwaukee. I have a bachelor's degree in biology and a master's degree in Fresh Water Sciences. Some of my favorite activities and hobbies include fishing, boating, hunting, exploring the outdoors, volleyball, and spending time with family and friends. I also love taking my dogs, Hiro and Mochi, on walks and trips to the dog park!

COACHING PHILOSOPHY

My philosophy for coaching volleyball revolves around developing skills with athletes that will help them both in and outside of volleyball. Enabling athletes to work on their social skills, confidence, leadership and positive attitudes within the volleyball setting sets them up with the foundation that will help guide them in their personal and professional lives. With the support of various coaches and athletes that share the same mindset, the atmosphere within the club/program becomes a positive impact that they will learn to cherish and share with others wherever they go.

COACHING HISTORY

- This will be my 10th year coaching at the club level.
- **2022-Present:** Milwaukee Sting Volleyball Club
